Hill, 1990, P.120,

() ()

()

()

()

()

()

A Hansen. *Business Cycles and National Income*, New York 1951, p. 57-76, 131-132.: ()

()

A large growth in population is favorable to investment and therefore to income generation and employment. This is the Keynesian view of population growth, but population may become so large in relation to natural resources and food supply that real wages tend to fall. This is Malthusian view of population growth. (Chapter 4, p. 75).
